

# DēcorLUX

Curtains are an elegant solution for controlling light which offer the chance for inviting prints which can transform a room. There coming in different styles and motorized options.

## **S-Fold**

S-fold curtain using the efficient and smooth operating system to present an attractive and contemporary S-Wave design.

## **Eyelet**

Eyelet curtain pole is threaded through metal eyelets that are punched through the top of the curtain. Creating a smart, contemporary effect, and best used in conjunction with a metal pole. Great where drawback space is limited as the curtain neatly concertinas together when drawn back.

## **Pinch Pleat**

Pinch Pleat is a traditional, formal heading made up of three pleats grouped together, the style is best suited to long, floor-length curtains particularly as it encourages the curtains to hang in attractive, orderly folds.

## **Swag & Tails**

Swags and tails are an elaborate form of window treatment, a well-tailored wedding gown, fabric draped and pulled in forming the elegant shape of the window used as a decorative pelmet to the window.

## **Pelmet**

Pelmet add an extra flair to your room and a formal finish to your window. It cut out lights coming in from the top which allows complete block out and insulation to your room. Pelmet can be made in many shapes, sizes and styles.

## **Motorized Curtain**

By using motorized curtain tracks you can control all your curtains easily via your smart phone or a single remote control.
